Lisa

The Iowa DNR has requested that the City construct a groundwater monitoring well network for the purpose of monitoring chlorinated solvent (TCE) plume dynamics. Impact7G has provided the City with the Scope of work in the attached proposal. While the City of Maquoketa has assumed the stewardship over the Clinton Engines site in the sponsored by the State's Land Recycling Program, the City continues to find the costs very challenging for our small community and hopes that the TBA can be of assistance in aiding the City with comply with the required scope of work.

Good afternoon Gerald,

To help me better understand, what work is the City of Maquoketa asking to be completed with the TBA funds?

Thank you,

Lisa Dunning

Goo Morning Gerald,

Thank you for your application. I have included Lisa Dunning (formerly Thresher) on this email as she is now serving as the TBA Coordinator for Region 7. Thanks!

Whitney
